

ATAM session

- Choose a leader to the ATAM session
- Two groups: Arkitekturgruppe og vurderingsgruppe
- Make notes of scenario on paper
- Keep track of time!

1) Presentation

- **The leader presents ATAM** (selve gjennomføringen, tidsbruk, osv)
- **Arc team have a presentation to the evaluation team**
 - core functionality
 - constraints
 - buisness goals
 - major stakeholders
 - architectural drivers
- **Architect team present the architecture and the evaluation team should listen and write down all architectural tactics and/or patterns:**
 - Architecture (4+1 views)
 - Logical View
 - Development view
 - Process view
 - Physical view
 - Technical constraints
 - interaction with other systems
 - Architectural approaches

2) Identify/analyze architectural approaches

- Identify
- Utility tree
- Analyze (**bruk skjema!!**)

3) Testing → OBS, dette skal ikke vi gjøre.

4) Raport Present the results
